PRODUCT DESCRIPTION

Light your work area with the Avide SMD portable LED floodlights. LED floodlights can provide up to 20 times longer lifetime compared to products using traditional light bulbs. Due to its IP65 classification, it is perfectly suitable for both indoor and outdoor use. The edge of the floodlight features a metal frame that makes it possible to be turned and tilted, thus enabling you to adjust the adequate lighting angle.

Do not look directly into the floodlight! Do not use the fixture under water!
Due to its portability, you can take it where an extra light source is needed the most. The 3G0.75 type and 1.5-meter-long power cable provides convenient access to the power source.

The Avide SMD Floodlights are available in a neutral white (NW) color temperature and 10W, 20W, 30W and 50W power output versions.
